2 ¿CÓMO BUSCO MIS CURSOS?

All rights reserved. XAL DIGITAL Confidential and Trademark

En la barra del buscador, (**search AWS Training Catalog**) escribe el nombre de tu curso de forma MUY específica, con acentos y sin faltas de ortografía.

Da clic en la lupa para buscar tu curso cuando finalices de escribirlo.

Este es el dashboard en el que podrás encontrar todos los cursos que AWS tiene para ti.

3

PERO... SI NO ESTOY EN EL DASHBOARD CUANDO INICIO SESIÓN, ¿CÓMO BUSCO LOS CURSOS?

En la parte superior selecciona “site menu”

The screenshot shows the AWS Training and Certification homepage. At the top, there are three main navigation links: "Explore AWS Partner Training", "Find AWS Classroom Training", and "Take an AWS Certification Exam". Below this, the "aws training and certification" logo is displayed. On the right side, there is a "Site Menu" button, which is highlighted with a red box and a blue arrow pointing to it. A dropdown menu is open, showing options like "Dashboard" (which is also circled in red), "Admin Dashboard", "My Account" (with a profile picture of Paola Trujillo and her email address paola.trujillo@xaldigital.com), "My Courses", "My Activities", "AWS Ramp-Up Guides", and "Support". In the center of the page, there is a "Continue Where You Left Off" section displaying four course cards:

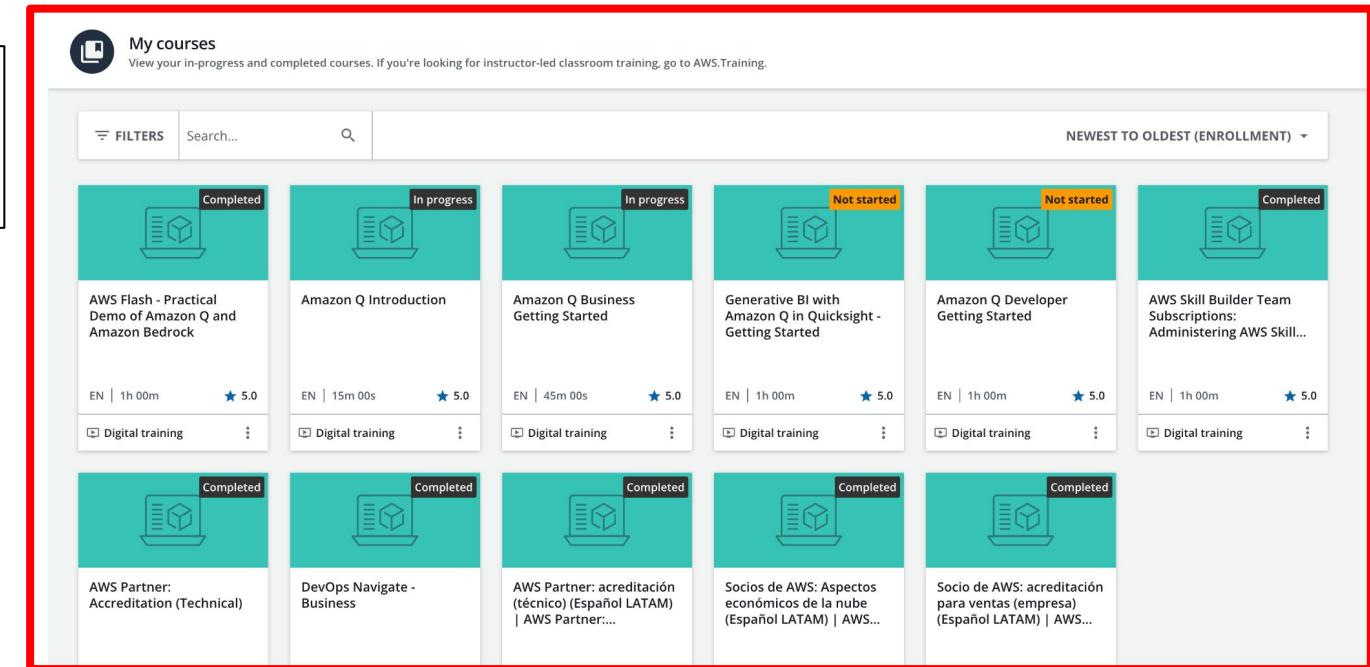

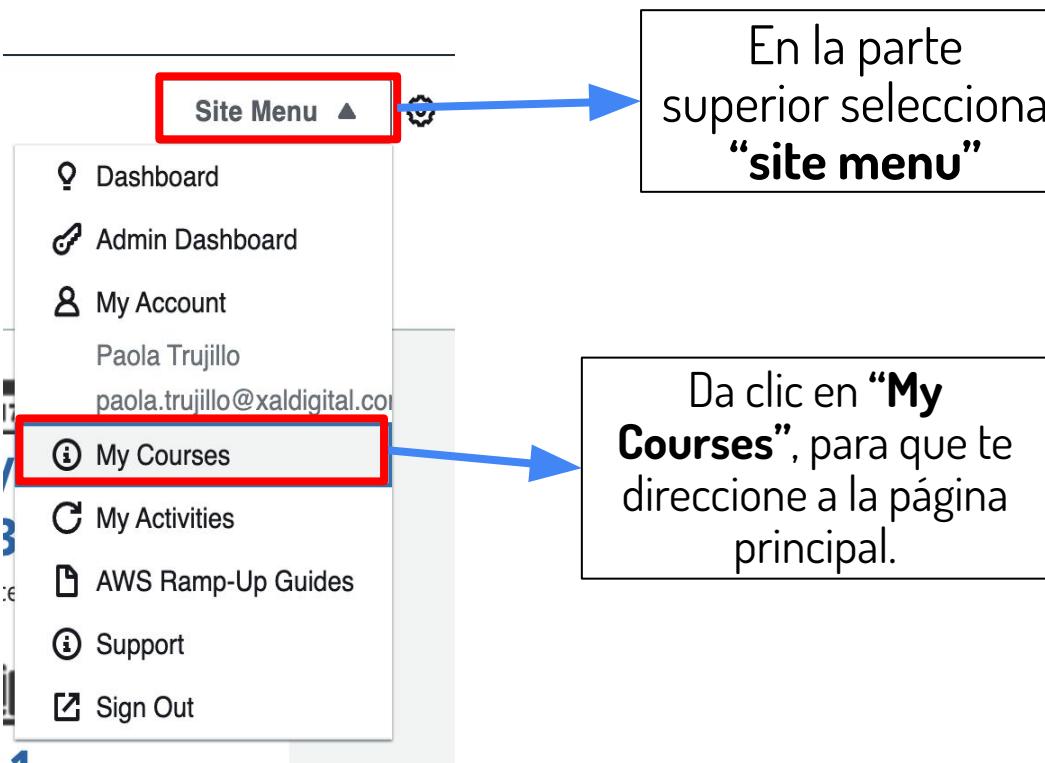

- Amazon Q Business Getting Started (Digital Course, In Progress)
- Amazon Q Introduction (Digital Course, In Progress)
- Amazon Q Developer Getting Started (Digital Course, Enrolled)
- Generative BI with Amazon Q in Quicksight - Getting Started (Digital Course, Enrolled)

Below each card, there is a star rating, language (English), and duration (e.g., 0h 45m, 0h 15m, 1h 00m).

Two text boxes with arrows pointing to the "Dashboard" option in the Site Menu:

- A box on the right says: "Da clic en ‘dashboard’, para que te direccione a la página principal."
- A box below it says: "y te regresará al Dashboard principal"

7 TIPOS DE TRAINING EN SKILL BUILDER

1

The screenshot shows the AWS Training Catalog dashboard. At the top, there are three navigation links: 'Explore AWS Partner Training' (with a magnifying glass icon), 'Find AWS Classroom Training' (with a play icon), and 'Take an AWS Certification Exam' (with a checkmark icon). Below the navigation is the AWS logo and a search bar labeled 'Search AWS Training Catalog'. A red box highlights the 'Learn by Cloud Role' section, which includes five categories: 'Solutions Architect' (circled in red), 'Developer', 'Cloud Operator (SysOps)', 'DevOps Engineer', and 'Decision Maker'. A blue arrow points from this section to a callout box containing the text: 'En la parte superior del dashboard se encuentra el tipo de training que deseas utilizar.'

Aprenda según el rol en la nube:

Desarrolla habilidades específicas para roles en la nube con las recomendaciones de aprendizaje agrupadas por rol en AWS. Esto incluye cursos digitales, planes de aprendizaje especializados, y capacitación interactiva.

2

The screenshot shows the 'Solutions architect' course details page. At the top, it features the five roles: Solutions Architect, Developer, Cloud Operator (SysOps), DevOps Engineer, and Decision Maker. Below this is a heading 'Solutions architect' with a subtext: 'Considering a solutions architect career? Try these on-demand courses and resources to grow your technical skills. Design resilient, high-performing architecture on AWS.' A red box highlights the course table, which lists two entries:

Course	Description	Type	Cost	Duration
AWS Compute Services Overview	Fundamental This course includes a use case scenario to help you learn how to differentiate between the different compute options and how to select the best compute option for a given workload.	Digital Course	Paid	40 mins
AWS SimuLearn: Solutions Architect Learning Plan	Fundamental Equip yourself with the skills required to build scalable, secure, and highly available solutions on the AWS cloud through immersive simulations and 27 hands-on lab exercises.	Game-Based Learning	Paid	26 hours

"learning by product domain", son cursos digitales para aprender a tu propio ritmo, que están centrados en diversos tipos de temas de los que quieras aprender.

Son todos los tipos de dominios que maneja Skill Builder

The screenshot shows the AWS Training Catalog interface. At the top, there's a search bar labeled "Search AWS Training Catalog". Below it, a navigation bar has four tabs: "All" (selected), "Learn by Cloud Role", "Build Practical Skills", and "Prepare for Exams". A red box highlights the "Learn by Product Domain" tab. To its right are "Subscriptions" and a "Site Menu" dropdown. The main content area displays a grid of product domains:

AWS for games	Containers	Internet of Things (IoT)	Satellite
Application integration	Data analytics	Machine learning	Security, identity, and compliance
Blockchain	Database	Management & governance	Serverless
Business applications	Developer tools	Media services	Storage
Cloud financial management	End-user computing	Migration and transfer	
Compute	Front-end web & mobile	Network and content delivery	
Contact center	Industry solutions	SaaS

The screenshot shows the "AWS for Games" learning content page. It features a blue header with a game controller icon and the title "AWS for Games". Below the header, a text block describes the learning content, mentioning self-paced digital courses, AWS Builder Labs, and AWS Jam challenges. A red box highlights this entire section. Below the text is a table listing a single course:

Course	Description	Type	Cost	Duration
Getting Started with AWS for Games – Part I	Fundamental This getting started course was designed to introduce game developers to the principles and best practices for hosting their game in the AWS Cloud. The Part I course will explore the emergence of online gameplay and cloud hosting. It will also examine solution design patterns for core game functions, including game server hosting. You will be introduced to some of the options available in the Amazon Web Services (AWS) game services portfolio. You will learn about design considerations that will help decide which options best meet your game's needs.	Digital Course	Free	55 mins
